Program Name: Forestry Field Applications
Degree: MNUN Sequence Number: 3

Program Request ID: 4891

Effective Dates: Fall 2024

Status: Interim

Initial Action: Deleted

Requested Date: 11/25/2022 9:24:44 AM

1. Department/School/College:

10002360 Department of Forestry

2. Name of Program:

Forestry Field Applications

3. Name of Degree:

MNUN

4. Type of Program:

Minor

5. Effective Start Semester:

Fall 2024

Effective End date:

Fall Semester 2024

Will the proposed change(s) have a negative impact on students? If so, which ones?:

there will not be a negative effect upon students. There has only been one student in past years and last student graduated 2016

Describe impact and explain what accommodations will be made:

there will be no impact or very minor impact as there are no students in the minor at this time

Reason(s) for change(s):

low enrollment in the program and decision by department to no longer host the minor.

DEPARTMENT LEVEL APPROVAL STATUS

Approved: Department of Forestry
12/8/2022 9:51:54 AM by Justin Kunkle for Richard K. Kobe, Chairperson

COLLEGE LEVEL APPROVAL STATUS

Approved: College of Agriculture and Natural Resources
1/9/2023 4:36:24 PM by Dorcia Chaison for Kelly Millenbah, Associate Dean

Fiscal Year (FY) counts are distinct student counts within the Summer, Fall, and Spring terms.
e.g. FY07=distinct student count within Summer 06, Fall 06, and Spring 07.
If a student changed majors within the FY, he/she is counted under both majors.

DEPARTMENT of FORESTRY

Richard K. Kobe, Chairperson

Forestry students discover their central role in sustaining forests and the ecosystem services that forests provide, including conservation of biodiversity, wood, clean water, and global climate stabilization. MSU forestry students learn to be leaders through multi-disciplinary course work, field studies, cutting-edge technology and mentorship from faculty.

The Bachelor of Science degree program in Forestry educates forestry science professionals. It integrates ecology, biology, economics and social science to help students solve some of the world's most pressing natural resource, environmental and energy issues. Students have the opportunity to minor in Sustainable Bioproducts Science and Technology or Urban and Community Forestry. ~~Students who are not majoring in Forestry can also minor in Forestry or Forestry Field Applications.~~

Our graduate programs include a research-intensive or a professional track for individuals pursuing a wide range of careers in academia, management, public agencies, non-government organizations or the private sector. Students also have the option to obtain a Graduate Certificate in Spatial Ecology or in Forest Carbon Science, Policy and Management.

~~MINOR IN FORESTRY FIELD APPLICATIONS~~

~~The Minor in Forestry Field Applications is designed to serve students who desire additional training in field biology as it relates to the management of forested ecosystems. The minor is available to students who are enrolled in bachelor's degree programs at Michigan State University, other than the Bachelor of Science Degree in Forestry.~~

~~With the approval of the department and college that administer the student's degree program, courses that are used to satisfy the requirements for the minor may also be used to satisfy the requirements for the bachelor's degree.~~

~~Students who are interested in enrolling should contact an undergraduate advisor in the Department of Forestry.~~

~~Requirements for the Minor in Forestry Field Applications~~

Complete all of the following courses (16 credits):
