MICHIGAN STATE UNIVERSITY
COLLEGE OF NURSING BYLAWS

PREAMBLE: The Bylaws for Academic Governance, Michigan State University (Section 1.3) provide the framework for faculty and student involvement according to the four modes of participation in the development of policy, programs, and procedures in academic and related matters. These Bylaws define the organizational structure and procedural roles of faculty and students in policy formation for Academic Governance of the College of Nursing and indicate the relationship to the administration.

Modes of Participation

The four modes of faculty and student participation identified for use in the College of Nursing standing and ad hoc councils or committees are (see Bylaws for Academic Governance, Michigan State University, Section 1.3):

Consultation

Advisory

A deliberative body of faculty and/or students recommends policies to an administrator who is authorized to make decisions. The administrator is not bound by the recommendation and accepts responsibility for the decision.

Shared Responsibility

A deliberative body of faculty and/or students makes recommendations to an administrator authorized to make decisions. If the administrator and deliberative body cannot agree and action must be taken, the recommendations of the administrator and the deliberative body will be submitted in writing to the next higher administrative level for resolution.
