A review of high-tech radiology utilization and overall costs and service at the MSU location. Overall costs for these services are less than other local locations including UM. A discussion ensued on how to incent employees to schedule services at the MSU location. An on-going educational campaign and perhaps financial incentives were discussed however, no decision was made. This topic will be revisited at future FHC meetings.

Highlights of Open Enrollment were shared as well as an update on the Humana plans available to retirees and those with Medicare as the primary payor effective January 1, 2021. A reminder that the spousal Affidavit must be completed annually during Open Enrollment.

The Council will elect a Chair for FHC at the next meeting and an updated roster needs to be published on the Academic Governance website.

A series of Zoom meetings will be scheduled soon.

The meeting adjourned at 4:40 pm.
