Faculty Healthcare Council
March 26, 2021

Attendees: Gary Stone, Tunga Kiyak, Dave Byelich, Linda Keilman, John Goddeeris Renee Rivard, Sarah Mainville, Katherine Dontje, Cherie Booms, Nancy Rhodes, Kara Schrader, Nancy Rhodes, Victor Rodriguez

Guests (MSU Health):
Annette Cawley and Kristine Allen

Absent: Deborah Moriarty, Dave Byelich

The meeting, conducted via Zoom, began at 3:35 pm.

Welcome and Introductions
Annette Cawley and Kris Allen from MSU Health attended the meeting to present current and future services.

Approval of minutes
Sarah Mainville made a Motion to approve the minutes and seconded by Linda Keilman. Motion passed.

MSU Health Presentation
MSU Health Care is the faculty medical practice representing 340 physicians, nurse practitioners and physician assistants across 14 clinical departments who are both researchers and academic professors, spanning 46 adult and pediatric specialties committed to high-quality patient care. Its outpatient visits are nearly 400,000 and total net revenues are over $108 million for fiscal year 2018.

Opportunity focused: recruitment of additional specialists to meet community needs and joint ventures with McLaren and Henry Ford.

Future considerations include a lab and urgent care center.

At the conclusion of the presentation from MSU Health representatives, Renee Rivard discussed an opportunity to explore a vendor, Omada Health, whose focus is assisting patients manage pre-diabetes symptoms. The Council suggested a future presentation from MSU Extension on their diabetes programs perhaps at the same meeting as Omada Health presents.

The meeting schedule during the summer was discussed as previously meetings were paused beginning in May through August. This will be discussed during the April meeting after the Teladoc/Livongo annual report presentation.

Meeting adjourned at: 5:00p.m.

Next meeting: April 23, 2021 from 3:30 – 5:00pm
